

Sandvik DC125R

Surface Top Hammer Drills

Sandvik DC125R is a fully remote controlled, hydraulic and self-propelled drilling unit on a 4-wheel drive carrier.

Typical applications for DC125R are foundation drilling, road cutting, trenching, bolting, line drilling in dimensional stone quarries, and other special drilling applications. Therefore DC125R is most often used by construction contractors, mines and quarries and the municipal sector. Due to its versatility DC125R is often included in the equipment fleet of rental houses as well.
